## Plan Overview

Characteristic/Description	Measure
<b>Population Variance.</b> All plans must adhere to the requirement that the maximum population variance not exceed 10 percent. Smaller variances are preferred over larger variances. This plan has a variance of:	<b>4.2</b>
<b>Avoid Retrogression.</b> Maintain two districts that are "majority-minority" in population composition. The majority-minority districts in this plan are:	<b>District 1: 83.6%</b> <b>District 2: 71.2%</b>
<b>Preserve Political Subdivisions.</b> Voter precincts should be the basic building block for all districts. Exceptions are present where the City limit passes through a precinct. This is common in areas where annexations have taken place.	<b>all districts follow precinct boundaries</b>
<b>Preserve the Cores of Prior Districts.</b> Base the current plan, to the extent possible, on existing city council districts. Compared to the 2001 districts, the number of precincts shifted to a different district is:	<b>37</b>
<b>Preserve Communities of Interest.</b> Neighborhood areas are a key indicator of similar communities of interest. The number of neighborhoods split between districts is:	<b>11</b>
<b>Maintain Constituent Relationships.</b> To the extent possible, keep incumbents within their current district. The number of incumbents moved to a different district is:	<b>none</b>

Note: Some of the above precinct changes may include only portions of the precinct.
